

BRISTOL AIRPORT EXPANSION AFFECTS YOU

If this matters to you **PLEASE** make your views known to North Somerset Council.

Two Planning Applications to expand the airport are being considered by North Somerset Council in March 2019. If approved, residents and visitors to Bishop Sutton and Stowey will be affected in the following ways:

The significant increase, of 4 million passengers per annum (50% increase from 2017), could mean a flight every 3 minutes during the day and a flight every 10 minutes during the night*. This brings with it increased noise levels by aircraft as they fly over Bishop Sutton using the already approved approach path to land at the airport - and at times, a flight path over Bishop Sutton after take-off.

Extra air traffic will impact on the tranquility of our Parish and surrounding Chew Valley area.

- There will be an increase in summer night time flights to a level like that experienced at larger international airports, all through the night, which is likely to interfere with sleep especially if your windows are open.
- An increase in private car traffic on our roads as no new public travel infrastructure is planned.
- The Airport has applied to use more of the Green Belt land for parking rather than look for other solutions.
- The increase in both air and road traffic will lead to an increase in greenhouse gas emissions and pollution.

It is important that you make your views known to North Somerset Council making it clear if you object. This can be done by March 1st, 2019 either on-line searching North Somerset Planning <https://planning.n-somerset.gov.uk/> for reference 18/P/5118/OUT (also quote references 18/P/5175/NMA & 18/P/4969/RM in your response) or in writing stating the same references to:

North Somerset Planning Dept, North Somerset Council, Town Hall, Walliscote Grove Road, Weston super Mare BS23 1UJ.
